AS A PUBLIC SERVICE REMINDER, PLEASE REMEMBER:

"You must have just fallen out of a coconut tree not to know that what can be must be unburdened by what has been and this includes hateful thought and the continued cancer of common sense..."

Peace and Harmony's Direct Manager, Commissar Harris - 2027

Citizens, this is a friendly reminder that Comrade Bertha B., also known as Big Sister and Transhuman Model #0006, is constantly monitoring you through the city's cutting-edge Ultra CTV Video Camera Network, humorously dubbed the "Don't even think about it or you will live to regret it!" Network.

Equipped with the latest nanobot biometrics software developed by Mister Billy D'Gated and his company, ACME

Heavy Industries, our advanced AI is already aware of your behavior, distinguishing between good citizens and those with mischievous intentions—even before any wrongdoing occurs.

Comrade Bertha and the Committee for Peace and Harmony wield sophisticated, illicit off-world technologies that allow them to detect your every intention.

This information is processed through an AI algorithm capable of predicting potential criminal behavior, all sanctioned by the Peace and Harmony Laws enacted by the corporate congress last spring. With this authority, they are empowered to intervene preemptively against any individual crime waves, employing lethal force against habitual offenders, such as the notorious Jesuits of Truth.

Comrade Citizens, it is essential to recognize that Big Sister Bertha is already aware of your every thought, even those fleeting moments when you might have contemplated a

social or hate crime.

Whether you were whispering your confessions in your sleep or having a seemingly private conversation with your cat, rest assured that your feline companion could very well have reported you in exchange for a tempting social credit reward. After all, those funds might just have been used to recently purchase that luxurious case of imported tuna from Amazonia Primo.

Citizens of Polite Society, it is essential to remain vigilant with your pronouns and, above all, refrain from engaging in those equally unkind and mischievous action verbs!

For any inquiries, please consult your personal copy of "Citizenship in the Ahriman Great Social Reset," E-Book which contains essential information regarding the prohibited verbs you must be cautious of.

Engaging with these verbs could negatively impact your social credit score, and attempting to combine them may lead to

severe consequences, including potential detention at a local FEMA Re-Education Training Center or being sent to a labor camp like Camp Mit “Coalition of the Welling” in Utah. This facility is currently involved in a large-scale recovery project in the irradiated contaminated remnants of the former Salt Lake City.

Citizens, strive to have a fulfilling, socially engaging, and productive day. Always keep in mind that your thoughts, if misused, can be far more damaging than the actions themselves.

It's essential to recognize that your mindset reflects the negativity that can taint your spirit.

The responsibility of the Peace and Harmony on Anti-Social Behavior Sub-committee is to identify and eliminate this negativity from the fabric of our community.

As the esteemed Commissar Harris wisely stated, one must be oblivious not to understand that potential must be
